EDUCATION

Georgia Institute of Technology — B.S. in Computer Science

May 2029

Atlanta, GA · GPA: 3.25/4.00 · Dean's List · Threads: People, Systems & Architecture

- **Study abroad:** Georgia Tech-Europe (Metz, France), Fall 2025.
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Discrete Mathematics, Computer Organization and Programming (C, Assembly), Objects and Design, Computing & Society.
- **Activities:** GT Mastering Android Development (GITMAD), Women @ College of Computing, Latino Student Organization, Colorstack, Google DevFest 2026.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript, HTML/CSS, TypeScript

Frameworks & libraries: Django, pandas, NumPy, Plotly Dash, Leaflet, React / Next.js, React Native, Expo, Firebase

Tools & methods: Git/GitHub, SQLite, pytest, JUnit, CI/CD (GitHub Actions), Vercel, Android Studio, Agile, Scrum

Spoken languages: English, Spanish (fluent)

PROJECTS

GT Explores — Mobile App, GITMAD Project Team

Sept 2026 - Present

- Selected via application to student project team, building a crowdsourced campus map where students rank spots through photo check-ins, friend tagging and a contributor leaderboard.
- **Tech Stack Used:** React Native, Expo, TypeScript, Firebase, Python

GT Movies Store — Full-Stack Django Web Application

Sept 2026

- Deployed a movies store website with user authentication, movie and review CRUD, backed by a SQLite database.
- Delivered 21 user stories in Agile iterations, with 7 hours of documentation of development process.
- **Tech Stack Used:** Python, Django, SQLite, HTML/CSS, Bootstrap; Live on PythonAnywhere

Personal Finance Data Pipeline — Self-Directed

Jan 2026 – Present

- Developed an ETL pipeline that ingests, validates, and cleans 200+ transactions from CSV, with data-quality checks for nulls, type enforcement, and duplicate removal.
- Added z-score anomaly detection and an interactive dashboard; building out pytest coverage and GitHub Actions CI.
- **Tech Stack Used:** Python, pandas, Plotly Dash

Specusol — Solar Energy Market Dashboard

Jan 2026

- Built a Python data platform in 36 hours at EnergyHack @ GT that models supply/demand equilibrium across ERCOT pricing zones, redistributing surplus solar energy to communities with unmet need.
- Implemented the ERCOT zone map (pure-Python address-to-zone lookup) and solar-irradiance visualizations with automatic equilibrium detection.
- **Tech Stack Used:** Python, Plotly Dash, Leaflet, NumPy; Live on Render

EXPERIENCE

Georgia Institute of Technology — Undergraduate Teaching Assistant

Aug 2026 – Present

- Selected as an undergraduate TA for Pathways in Computing, the first-year seminar for incoming CS majors; support a 200-student section.
- Selected to lead two Hive mentor groups (55 students) after receiving recommendation from Head TA.
- Host 12+ in person meetings, 6 for each Hive, adapting sessions for the freshman Hive (26), and the upperclassmen Hive (29) for career preparation and development.

Georgia Tech, Office of Scholarships & Financial Aid — Student Assistant

May 2026 – Aug 2026

- Advised 10–20 students and families per week in English and Spanish, and organized 100+ scholarship documentation letters, all under FERPA compliance.
- Co-authored the office's Peer Training Manual: consolidated 10+ years of documentation into one structured guide, onboarding the new cohort of 15 Fall student assistants.

LEADERSHIP & COMMUNITY

Intercultural Fest — Coordinator of Volunteers & Foundation Ambassador

Mar 2024 – Present

- Coordinated 20+ volunteers across 12-hour cultural festivals drawing 500+ attendees; completed 80+ service hours.
- Served as Foundation Ambassador alongside the CEO; recognized as an exemplary volunteer with an \$800+ award.

Hispanic Organization Promoting Education (HoPe) — Chapter President

Aug 2021 – May 2025

- Grew the chapter from ~100 to 200+ members; led monthly meetings and weekly "Scholarship Sunday" outreach.

- Organized a cultural showcase reaching 1,000+ students, a FAFSA Night for 30+ families, and fundraisers securing \$1,500 in donations; earned the National Chapter Award.

HONORS & SCHOLARSHIPS

Gates Scholar (Cohort VIII) · QuestBridge Scholar · HSF Scholar (2026 HSF NLC Participant) · Tapia Conference Scholarship (1 of 17, GT College of Computing) · Rewriting the Code Member · Women, Science & Technology (WST) Learning Community · Second Year to Career Success (S2C) Pathway Cohort · High School Valedictorian
